Rina Kusuma (fiktif)

Backend Developer

Experience: Backend Developer at PT Logistik Contoh (2023 - present): built REST API services with Python and FastAPI handling 2 million requests per day.

Experience: Designed PostgreSQL schemas and tuned slow queries, cutting report generation from 40 seconds to 3 seconds.

Experience: Added Redis caching for the tracking API and containerized 6 services with Docker.

Projects: Inventory REST API built with FastAPI, PostgreSQL and Redis, deployed with Docker Compose.

Skills: Python, FastAPI, PostgreSQL, REST API, Docker, Redis, Git

Education: Bachelor of Computer Science, Universitas Contoh (2022)
